

The International Chamber of Commerce (ICC)

The ICC is the **world's largest business organization** with a network of over 6.5 million members in more than 130 countries. The ICC works to promote international trade, responsible business conduct and a global approach to regulation through a unique mix of advocacy and standard setting activities – together with market-leading dispute resolution services. Our members include world's largest companies, SMEs, business associations and local chambers of commerce.

ICC India

We are one of the most active chapters of the ICC. Membership of ICC India *ipso facto* confers the membership of the ICC. We work closely with government, banks and financial institutions, corporates, law firms, consultancy firms and chambers & trade associations.

ICC Services/Publications – Vital information for international business

ICC Publications is the publishing arm of the ICC. It provides precious resources for international business; invaluable for bankers, lawyers, arbitrators and anyone involved in cross-border trade. The content of ICC's publications is derived from the work of ICC commissions, institutions and individual international experts.

Our list of products covers three broad categories – ICC standards and rules, practical guidelines, and reference works. The rules and accompanying guidelines, which form the core of the publishing programme, are updated regularly to take account of technical developments and the evolution of commercial and banking practices. Our best known publications, Uniform Customs and Practice for Documentary Credits (UCP) and the Incoterms® rules, have been translated into more than 30 languages.
